Louisville Indoor Racquet Club Summer 2016 Training

The Louisville Indoor Racquet Club has the most complete and innovative junior tennis program in Louisville. We stress the importance of limiting classes to ability level and small student-pro ratios. A free evaluation is available by calling us at 426-2454.

Children will work in small groups and will be instructed in the following areas of the game: *tennis etiquette, scoring, basic skills, tennis hand-eye coordination, and advanced drilling for the intermediate to advanced players. The player will have actual playing time in game situations.* LIRC summer program will start June 6th and end August 14th.

10 & Under Workshop

A chance for younger children to learn fundamentals and become interested in playing tennis. Children learn hand eye coordination, proper technique, forehand, backhand, volley and play fun games. The clinics use foam balls which are softer and slower. Foam balls are designed to help children swing slower and experience the success of the ball going over the net. The nets are lower to provide success for game play.
